Overview

In this class you go from Consultant to Project Leader. Therefore, there are two parts of this class: project and leadership. For the first half, you will work to develop a project to work on with a SURE Entrepreneur alumni based on your professional interests. For the second half (leadership), you will work with current Consultants and their Entrepreneurs during class-time.

Project

Your objective for the project is to identify a project that is:

- Something that you are interested in professionally
- Something that will improve your resume
- Something you can finish within roughly 4-6 weeks
- Something that is needed by a SURE Entrepreneur Alumni
- Something that a SURE Expert (Guru, mentor, or someone else we will find) can help you finish

The process for this will follow this general outline:

1. **Brainstorming** – Class discussion where you will talk about your professional goals, major obstacles, and where you see yourself in 3-5 years. The objective will be to come up with 2-3 broad ideas of projects to go on your resume. (Note: this discussion will be heavily moderated and guided by the Professors.)
2. **Profiling Mentor**—Class discussion where you will come up with the ideal traits of an advisor who can help you with your project.
3. **Contact Mentor**—Discuss your project ideas with a professional advisor that you found or (more likely) that was appointed to you by the Professors. With the mentor, you will discuss your goals and also sketch out how you might frame a project that fits these goals and could meet the needs of a SURE Small Business.
4. **Present Project Idea**—Present the idea(s) for your project(s) to the rest of the class.
5. **Create survey**—Create a survey based on your project ideas to send to the SURE Alumni.
6. **Conduct Interviews**—Interview 3-8 SURE alumni who expressed interest in your project.
7. **Client Selection**—Take your interview information back to the advisor and scope out the project, then choose a client and set up the terms of the project including objective, timeline, and deliverables.
8. **Present Project Proposal**—Once you have chosen your client, make a presentation in class on the client, objectives, timeline, and deliverables.
9. **Project Update(s)**—Using the objective, timeline, and deliverables from the Proposal, make a presentation updating the work you have done in the passing time and the work you

Leadership

Project Leaders will also develop as leaders. The two ways that this will happen will be serving as substitutes or additional help when needed during the B2B course, and by reading two books and some additional readings, then having discussions on them during class. The two books are *The Trusted Advisor* by David H. Maister, and *The Coaching Habit* by Michael Bungay Stanier.
