

OUR CITY, OUR COLLEGE

Creating Global Impact

Two alumni from the C. T. Bauer College of Business at the University of Houston have taken a student project and transformed it into an award-winning startup.

Led by Ivette Rubio and Eric Beydoun (both BBA '14), WAVVE Stream is in the business of water purification using patented nanotechnology born on the UH campus that removes heavy metals, chemicals and inactive bacteria more effectively and efficiently than other products on the market. They are working to launch the startup globally and recently won first place at the RECESS National Pitch Competition, powered by Southwest Airlines, adding to a long list of podium finishes from 16 competitions since 2014.

With the support of Bauer College's nationally ranked Wolff Center for Entrepreneurship, Rubio and Beydoun continue to use their business acumen to create a global impact. *We are Bauer, and we are your business connection.*

C. T. Bauer College of Business is an AACSB accredited business school.

The University of Houston is an EEO/AA institution.
